

TWO DEGREES.  
LESS TIME.

Accelerate your  
education at Miami.

# Earn Your Bachelor's and Master's Degrees

## Our accelerated programs begin on day one.

Your college education is among the most important investments you'll make. Make that investment go further at Miami.

Programs such as combined bachelor's and master's degrees allow top students to pursue both degrees simultaneously, and with "+1" programs, students can earn both degrees in four or five years. Some graduate programs also offer guaranteed admission to well-qualified, first-year students.

If an accelerated program appeals to you, now is the time to plan. Explore opportunities by submitting a simple interest form via your Miami applicant status page.

**We'll let you know how you can jump start an amazing college experience.**
