

Department of Accountancy
Guidebook for Recruiters

About Miami University

Founded in 1809, Miami University was named for the Miami Indian Tribe that inhabited the area now known as the Miami Valley region of Ohio. Miami enters its third century with a continued commitment to the best ideals of public higher education.

Miami is a place of involved scholarship and teaching where all students are grounded in the liberal arts, encouraged to become citizen leaders, and infused with an excitement for learning and critical thinking. Each year we enroll approximately 15,000 undergraduate and 2,600 graduate students on the Oxford campus.

Miami University: Equal Opportunity in Education and Employment

Why Miami?

- The 2022 *U.S. News & World Report* ranks *Miami University* among the top 10 for its commitment to undergraduate teaching nationwide. Miami has consistently ranked highly on this short, elite list of universities for the past nine years.

Commitment to
Undergraduate
Teaching

National Public Universities

U.S. News & World Report, 2022

- The *Fiske Guide to Colleges 2020* recognized Miami as among the best in the nation for its core commitment to a liberal arts education, highlighting Miami's strengths in academic programs. The guide also commends Miami for its emphasis on research, study abroad, and leadership.
- Miami's accountancy program was ranked **4th in the nation** among schools without doctoral accounting programs by the 2019 *Public Accounting Report*.

Message from the Chair

To our highly valued recruiters:

Thank you for your interest in recruiting Accountancy students at Miami University! Our primary departmental objective is to prepare our students to excel as high-integrity business leaders within fulfilling professional careers. You are critical partners in helping us to successfully achieve this objective and we very much appreciate your efforts. Thank you!

We take great pride in our students and are confident that you will find them excellent candidates for positions, as well as exemplary employees, within your organization. Our accountancy programs have earned AACSB accreditation, and both the undergraduate and graduate programs are highly ranked.

Our undergraduate accountancy curriculum is designed to equip our students with the knowledge, skills, and abilities (KSAs) needed to succeed in an increasingly dynamic business environment. In particular, our programs develop the following KSAs:

Foundational accounting knowledge • Holistic business knowledge
Technological agility • Unstructured problem solving • Communication skills
Interpersonal skills, including teamwork • Research skills
Data and analytics mindset and abilities • Integrity

It is important to note that in addition to providing a cutting-edge curriculum, we also offer our students a wide range of hands-on learning experiences (e.g., study away programs, fellowships, case competitions, student/faculty research collaborations, etc.) that reinforce and further expand the KSAs noted above.

With the above KSAs introduced in the classroom and reinforced through our many hands-on learning experiences, our students are well prepared to work in diverse teams to solve problems across a broad range of environments and effectively communicate solutions to both internal and external stakeholders. Accordingly, our students are well prepared to become the next generation of high-integrity business leaders across a wide range of organizations.

This guide provides information on a variety of ways that you can interact with students in our programs and ways we can assist you in your recruiting efforts at Miami. We hope you find this information helpful. Please contact me and/or our administrative staff if you have questions or need assistance. Also, please let us know if we can include any additional information in this guide to further help you in your recruiting efforts.

Sincerely,

A handwritten signature in blue ink, appearing to read "Andrew Reffett".

Andrew Reffett

Chair and Professor, Department of Accountancy

Mission Statement and Goals

Our mission at the Department of Accountancy is to prepare students to excel as high-integrity business leaders within fulfilling professional careers. The department also seeks to enable faculty members to be outstanding instructors whose scholarship informs their teaching and who positively impact the profession, academy, university, and community.

Student-Focused Goals

Student Recruitment: To attract intelligent, hard-working, high-character students from diverse backgrounds.

Student Development: To provide students with a rigorous, cutting-edge education through both state-of-the-art courses and many co-curricular experiences, including internships, study away programs, case competitions, fellowships, and others.

Student Placement: To place students in a wide range of fulfilling business careers that allow students to utilize the knowledge, skills, and abilities developed at Miami.

Student/Faculty Relationship: To foster long-term relationships with students that facilitate students' professional development and provides the foundation for a life-long active partnership with the Department of Accountancy, the Farmer School of Business, and Miami University.

In the past few years, we have witnessed a very competitive recruiting environment for graduates from our bachelor's and master's programs in accountancy. This year, for example, about 140 corporations and public accounting firms will be interviewing students for both entry-level positions and professional internships.

What Recruiters Say about Miami Accountancy Students...

Students leave Miami University with a strong knowledge of accounting, but it's also about balance. It's not just the GPA that we look for; it's the well-rounded student. They have the opportunity at Miami to get involved in activities and community service projects that help them develop the skills and attributes we're looking for: time management, communications, leadership, and character.

~ Deloitte

Students from Miami continue to provide exceptional work while being personable with other office staff and eager to jump in and help with any jobs being completed.

~ BKD

Miami students have classroom experiences and professionalism that translate well into the business environment and set them apart from other students.

~ConAgra

Miami students have proven to be top performers at our firm. Miami students are always professional and are prepared to make an impact during their internship and staff experiences.

~ EY

The Miami Accountancy Student

From the moment they are admitted to Miami University, our accountancy students are exposed to the tools and experiences they will need to succeed in the real world. The Miami Global Plan, combined with the required accountancy courses, electives, and thematic sequences available to accountancy majors, is designed to equip our students to be problem-solvers in a fast-changing global environment. This section briefly describes our academic programs and provides a profile of some of our students.

Whom We Accept

Entering freshmen are directly admitted to the business school upon enrollment. The academic qualifications required for admission are dependent on the strength of the applicant pool, but the middle 50% of the entering class in 2021 have the following academic profile:

ACT Composite Score:	25–30
SAT (CR + M):	1230–1390
GPA (on a 4.00 scale):	3.68–4.21

Our highly competitive programs attract top-ranked students not only locally, but nationally and internationally as well (see the [Employers' Guide to Hiring International Students](#)).

Jared Sheehan '11, from the Cleveland area, was an accountancy major with an environmental sciences companion major. Sheehan led Green Oxford's biodiesel project—an interdisciplinary effort to develop a bioreactor to transform the university's food waste into fuel. Jared spent most of his junior year studying in China and Brazil.

As a senior receiving the Provost's Student Academic Achievement Award, he reflected, "I hope the award will allow me to better network with leaders in the business and academic world so that I may pursue my goal of sustainable business."

Jared is living out this goal. Having served as a senior consultant for Deloitte focusing on corporate sustainability issues, he is now forging a new path in the nonprofit field through his company, PwrdbY, with the aim of leading nonprofits into the "age of innovation by partnering with them to solve their largest problems and increase their sustainability."

Accountancy Student Profile		
	Bachelor's Degree	Master's Degree

The Bachelor's Degree in Accountancy

The objectives of the bachelor's degree program in accountancy are to provide students with a general understanding of multiple areas of accounting and equip them with the foundational knowledge and skills needed for entry-level accounting positions as well as graduate business and accounting programs.

The Miami Plan

Aside from the required accountancy courses and professional electives, Miami accountancy students complete the Global Miami Plan core curriculum, which aims to develop students' mental agility and problem-solving abilities in a fast-changing world. Features of this curriculum include:

- **Foundation courses** in English Composition; Creative Arts, Humanities, and Social Science; Global Perspectives; Natural Science; and Mathematics, Formal Reasoning, and Technology.
- **Advanced writing course** focused on writing instruction.
- **Thematic sequence** comprising three related courses (nine hours) outside the department. The choices for thematic sequences can vary greatly based on the student's interests, and accountancy students are encouraged to take the Information Systems & Analytics 2 (Applied Business Statistics/ABS) sequence. Some students choose to extend their thematic sequence into a minor. *Note:* Except for the ABS sequence, business students cannot choose a thematic sequence from the Farmer School of Business. Some students choose to pursue a minor in Entrepreneurship or Management & Leadership.

- **Capstone Experience**—a three-credit-hour requirement in the final year of study that merges Miami’s liberal education with specialized knowledge in the student’s field of study. This could take the form of a workshop, research seminar, or an individual or group project. Common topics for accountancy students include business ethics, startup business plan creation, strategic management, and accounting analysis.
- **Additional experiences** in intercultural perspectives and experiential learning.

First Year Integrated Core

In addition to the Miami Global Plan, students in the Farmer School of Business get a head start to success with the First Year Integrated Core (FYIC), which comprises eight credits in the following four courses: Foundations of Business; Foundations of Business Communication; Creativity, Innovation and Entrepreneurship; and Introduction to Computational Thinking for Business. Students move through these classes in cohorts, individually building critical skills while working collaboratively for a real client using real data.

Study Abroad Opportunities

Our accountancy students are exposed to a wide range of study abroad opportunities. In past years, more than 60% of accountancy students have taken part in an international opportunity in various parts of the world. During the COVID-19 pandemic, 12 accountancy students participated in the Global Virtual Internship Program. Topics of study include:

- Global finance, business, and entrepreneurship
- Supply chain operations and resource management
- Social responsibility and sustainability
- Economic development in developing countries
- Global information technology
- Startup entrepreneurship
- Business legal systems

For more information on the study abroad opportunities available to our students, visit the [FSB Global Studies website](#).

Note: Although our study away programs have been disrupted by the COVID-19 pandemic, the goal of increasing our students’ global perspective through study away programs remains central to our educational mission.

Meghan Shaughnessy '18 took the opportunity to study abroad in the spring semester of her junior year, with an immersive experience in Japan at Doshisha University that allowed her to take a variety of classes, with some taught in Japanese and others in English.

She recalls, "My favorite and most memorable class was the Special Business Topics class, which primarily focused on the implications of English as a global language. This class was very special to me since it had both international students and native students, all focused on learning more about others' cultures and points of view. Most of the good friends I made in Japan were from this class, some of whom were from China, Japan, and even Germany. Our professor for the class constantly challenged and encouraged us to further explore and analyze the topics we discussed in class, and fostered a cultural exchange between his students at every class meeting."

Meghan looks forward to continuing this global perspective after graduation: "After I graduate this May [2018], I will be starting with PwC's assurance practice in Chicago, and will likely be working with some of the Japanese Business Network clients. I hope to continue developing and using my Japanese language skills, and would love to work with Japanese clients in the future."

The Master's Degree in Accountancy

The objective of the master's degree program in accountancy is to provide students with an in-depth understanding of selected areas of accounting and business, along with the knowledge and skills needed to prepare them for broad accounting-related careers—including those outside of tax and assurance services. The program qualifies graduates to sit for the CPA examination in Ohio and most states that require 150 semester hours. Some of the career paths our graduates have chosen include:

- Business risk services
- Fraud investigation
- Business valuation
- Forensic accounting
- Systems and process assurance
- Investment banking
- Data analytics

The Miami MAcc program's emphasis is on a long-term career in an accounting-related field. Our courses in risk management, fraud, financial analysis, corporate finance, and tax planning combine to prepare students for a career, not just an entry-level position.

The Executive Conference

A key component of our program is student interaction with international accounting executives through the [Executive Conference](#), which was established in 2006 by the [William Isaac and Michael Oxley Center for Business Leadership](#) to help executives address contemporary challenges for managing risks that threaten business objectives.

Combined B.S./MAcc Program Option

High-achieving students have the option of pursuing a combined-degree program in which they can earn both the bachelor's and master's degrees in accountancy within four years. Completion of this program also qualifies students for the CPA licensure in the state of Ohio and most other states that have adopted the 150-hour education requirement. Students in the program must have completed at least 64 credit hours with a minimum GPA of 3.25.

MAcc Class of 2022

Overview of Recruiting at Miami

The majority of employers use Miami University's [Center for Career Exploration & Success](#) to recruit students. This office provides employers with the tools needed for a full recruiting program, described further below. In addition, the Department of Accountancy provides several ways that recruiters can connect with students. These are detailed in the next section.

Miami University Center for Career Exploration & Success

We are excited to bring employers and students together for our *Annual Fall Career & Internship Week Fairs*. The schedule of events for the *Fall 2022 Career and Internship Week* is as follows. Please visit the Career Services [Employer page](#) for more information.

September 20: Fall Career & Internship Fair, *in person*, Millett Hall, 1–5 pm (EST)

September 21 - Science, Technology, Engineering and Math (STEM) Fair, *in person*, Millett Hall, 1–5 pm (EST)

September 28- Virtual Fall Career & Internship Fair, *on Handshake*, 1–5 pm (EST)

For the in-person fairs: Connect with over 3,000 students representing all disciplines and career interests looking for full-time positions, summer internships and/or co-ops, or simply seeking networking opportunities. The registration package includes a 6-ft. table with white tablecloth for up to two representatives, an employer luncheon, light refreshments, and parking.

Also available at an additional cost are additional tables for up to six representatives and access to electric outlets.

For the virtual fairs: Unlimited employer representatives, three 30-minute employer group chats for up to 100 participants (more, if employers use their own conferencing link), 10-minute one-on-one video chats with students, access to student resumes, and follow-up student messaging and communication after the event.

For more information about the fall recruiting fairs, employers can contact careerfairs@MiamiOH.edu or (513) 529-3834.

Additional information is also available through the [Farmer School of Business Career Development](#) page, including policies for jobs and internships offered through Miami recruiting.

Typical Recruiting Schedule

Recruiting accountancy students starts as early as the sophomore year. In the summer following their sophomore year, many students participate in leadership programs held by accounting firms and private corporations. Some may choose summer jobs or internships that are related to their field of interest.

Juniors may take an accounting internship in the spring semester or the following summer, and seniors who are not pursuing graduate school will be actively looking for permanent positions when they enter in the Fall.

The two major recruiting events held at Miami are *Career and Internship Week* in September and *Spring Career and Internship Fair* held in February. Most firms will recruit for internships and permanent positions during Career Fair in the Fall. However, job posting and interviewing opportunities are offered year-round.

Salary Survey

Upon graduating our bachelor's degree program, the average full-time salary for our 2021 accountancy graduates was \$60,425.

Departmental Internship Standards

Students who complete internships may apply for academic credit based on their experience. The department's Internship Coordinator will assess whether the internship meets accountancy department standards. Employers are asked to provide the following:

- An offer letter describing the nature of work to be completed during the internship, the duration of the internship (a minimum of eight weeks, full-time basis is required for credit), and the manner of compensation.
- An evaluation of the student's performance sent directly to the faculty supervisor.

In addition, students are asked to write reflection paper describing their usual activities during the internship, a description of business principles applied during the internship, and a description of new business principles learned on the internship.

Job and Internship Offers Policy

Employers should note the following policy for job and internship offers.

Offer Deadlines

In accordance with the [National Association of Colleges & Employers](#), students are expected to have a reasonable amount of time to consider an offer. Therefore, employers recruiting at Miami University and with the Farmer School of Business are expected to adhere to the following dates for offers.

- Converting internships to full-time positions: offer to remain open until October 15
- Full-time or internship offers during fall recruiting: offer to remain open until October 31 or 3 weeks, whichever is longer
- Full-time or internship offers during spring recruiting: offer to remain open until February 28 or 3 weeks, whichever is longer

Failure to follow these dates may result in a semester-long suspension of recruiting activities at Miami University.

In addition to FSB policy, **offers for spring/summer leadership programs** should stay open until *August 15 or 2 weeks after the end of the leadership program*, whichever is later. As always, please consider extension requests from students.

Rescinded Job Offers

A rescinded job offer should be a rare and uncommon occurrence. If you must rescind an offer, please contact the student and the FSB Career & Professional Development office immediately so we can assist the student.

We may ask for your cooperation in assisting the student with finding another opportunity. Employers who rescind offers may be subject to suspension from recruiting at the FSB and Miami for one semester or longer. Please carefully review the guidelines and follow the 2002 NACE recommendations in their Position Statement on Rescinded and Deferred Employment Offers.

Reneges by Students

Reneging by students on an internship or full-time position is against our FSB Job & Internship Acceptance Policy. We consider this a serious issue, so please contact us directly if this occurs.

Michael Webb, Schweinfurth Director of Professional Development

webbm5@miamioh.edu

513-529-3632

Reaching Miami Accountancy Students

In addition to registering with Miami University CCES, interested recruiters may reach Miami accountancy students directly through a variety of channels—from simply posting a job opening via our student listserv to joining a classroom or student organization event for greater exposure. This section discusses the different ways you can reach Miami accountancy students.

Our primary contact for reaching accountancy students is:

Amanda Pyzoha, EY Professional Development Advisor

shickar@MiamiOH.edu

513-529-3372

Sending an Announcement to Students

If you would like to send information to accountancy majors regarding employment opportunities, campus visits, presentations, or anything else that would be of interest to our students, we are happy to relay the information for you via e-mail.

Note: E-mail messages will be sent in plain text; if a formatted message is required, please provide a PDF, which we can send as an attachment.

Inclusion in Our Careers Web Page

Our department website also features a [career and internship page](#) for students, which has links to firms and corporations interested in recruiting our students. Please contact us if you wish to be added to this list.

Scheduling Event Space

Some firms are interested in using an information table, popup tent, or a meeting room with students. In a normal year, we accommodate tables or pop-up tents inside the Farmer School of Business building or on the patio.

Yearlong Program of Recruiting Opportunities

Each year, our department provides several opportunities for organizations to reach students and provide them with information about accounting careers. These are described below.

The Recruiters' Ad Book – Late August

The Recruiters' Ad Book gives you the opportunity to provide information about your company and the positions that you regularly or currently seek to fill. It is distributed to accountancy students in late August/early September as part of their career planning packet. Companies may provide a two-page statement describing their organization, the accounting positions for which they will be interviewing at the Career Fair (if applicable), and any other pertinent recruitment information.

- Please submit your ads no later than July 30.
- We prefer documents submitted in PDF format.
- A nominal fee will be charged to cover printing costs, to be divided among participating organizations.

For more information, or to submit your ad copy for the Recruiters' Ad Book, please contact:

Debbie Gentry, Administrative Assistant

gentrydp@MiamiOH.edu

513-529-0451

Meet the Firms Night – September

To continue the tradition of connecting you to our student community, CCES is excited to partner with Beta Alpha Psi to host the virtual *Accounting, Financial Services & Consulting Career Fair* on Monday, September 20, from 1 to 5 pm. Much like our Meet the Firms events in years past, this virtual fair is centered around accounting and financial services.

For more information on how to get involved with Meet the Firms, please contact:

Michele Frank, BAP Faculty Advisor

frankm@MiamiOH.edu

513-529-2274

Meet the Firms Night

Sophomore Career Panels – October and March

Each semester (usually in late October and mid-March), we invite accounting professionals to participate in a panel discussion about accounting careers as part of our *ACC 221: Introduction to Financial Accounting* classes. We enroll a little over 1,000 students in about 30 ACC 221 classes, and this is an excellent way for the students to gain insight into the various career opportunities that exist in the field of accounting.

Each panel includes three or four accounting professionals currently working in large public accounting firms, medium/small public accounting firms, government, or industry. The panelists are asked to present a 50-minute (combined) talk that focuses on accounting careers in general, rather than their company or firm: why they're interested in accounting, the typical workday, their responsibilities, what they find exciting about their career and different career opportunities in accounting. A Q&A session follows, as time allows.

For more information on how to get involved with the Sophomore Career Panels, please contact:

Debbie Gentry, Administrative Assistant

gentrydp@MiamiOH.edu

513-529-0451

Accounting Careers and Networking Events

At least once each semester, students are given the opportunity to learn about accounting careers and to network with accounting professionals and recruiters in an informal setting. Events are open to accountancy majors or business students interested in accounting. The goals of the events are to give students a perspective on a “day in the life” of an accounting professional, to educate students about the career options in accounting, and to inform students of the recruiting cycle for the specific field they might be interested in pursuing.

Past events have included a Fall Recruiting Panel, where employers came to campus to speak to students about career paths, internship and full-time employment opportunities, and the recruiting cycles at their organizations. This event is focused primarily on the recruiting cycle to prepare students for the Fall Career Fair. The spring event is focused on networking and exploration as students connected with accounting professionals to learn about day-to-day work as well as career opportunities within various organizations. Similar events will likely be held each year.

Events are coordinated by Beta Alpha Psi and the Department of Accountancy. In addition to these events, the ACC 256 Accountancy Careers Exploration course has speakers present professional development topics and career paths in

accounting. For more information, contact:

Amanda Pyzoha
EY Professional Development Advisor
shickar@MiamiOH.edu
513-529-3372

National Association of Black Accountants

The Miami University chapter of the National Association of Black Accountants, Inc. (NABA), was founded during the 2015 fall semester with the goal of providing students of color in accounting, finance, economics, and other business-related fields the mentorship and resources to encourage their success in the classroom and in the business world.

The chapter has held workshops for its members that have included discussing the benefits of a CPA and MBA, and preparing its members for the career fairs. NABA has networked with a variety of firms that have made presentations during NABA's general body meetings. NABA is always seeking opportunities to connect with companies, organizations, and professionals to provide not only valuable career advice, but also mentorship. To reach NABA members and support NABA's goals, please contact:

Elizabeth Killy, Faculty Advisor
killyem@MiamiOH.edu
513-529-0539

Brandon Robertson, a 2014 MAcc graduate and recipient of our distinguished C. Rollin Niswonger Fellowship, was part of Miami's Fresh Start program. Nearly a decade ago, Brandon enrolled as an undergraduate at Miami University. A self-described "cliché first year student who...put my coursework and studies on the back burner," he recognized that he was not ready for college and made the difficult decision to leave school.

Brandon worked, matured, and gained much-needed life experiences over the next several years. In fall of 2009, he returned to pursue a degree in the Farmer School of Business, completing his accountancy major with a 3.85 overall GPA and a stellar 3.93 major GPA.

Brandon used his experiences and passion for business to help other students succeed, volunteering as a mentor in the Accounting Mentoring Program and working as a tutor in the Office of Learning Assistance— all while parenting two young children. His efforts earned him a 2012 Senior Leadership Award.

Brandon attributes his success, in part, to being a nontraditional student, saying his work in various jobs allowed him to gain real-world knowledge that many students do not obtain until after college. Brandon's hard work, patience, and perseverance have paid off. After completing an internship with PwC, he accepted a full-time job offer and joined their audit practice.

Additional Support for and Exposure to Students

Many organizations have gained additional exposure to students by providing scholarships through the department. Scholarship amounts typically range from \$500 to \$5,000. The current listing of Accountancy scholarships is included below, for your reference.

Scholarship Information	
Scholarship	Recipient
Accountancy Faculty Scholarship	Undergraduate accountancy major
Albers Accountancy Scholarship	Undergraduate minority accountancy major
Andersen Alumni Accounting Scholarship	Senior accountancy majors and accountancy graduate students
Arthur H. Carter Scholarship	Undergraduate accountancy majors and accountancy graduate students
BKD Scholarship	Undergraduate accountancy majors
BKD Scholarship for Minority Students	Undergraduate minority student (sophomore or junior students)
C. Roger Stegmaier Accountancy Award	Undergraduate accountancy major
Christine L. Mabrey Scholarship	Undergraduate accountancy major
Crowe Horwarth Scholarship	Undergraduate accounting student
Daniel Leshner Beta Alpha Psi Award	Outstanding Beta Alpha Psi member
Deloitte & Touche Donald M. Lutz Memorial Scholarship	Junior accountancy major
Deloitte & Touche Maureen R. Mushat Memorial Scholarship	Junior accountancy major
Dr. Gyan Chandra Memorial Scholarship	Undergraduate accountancy major
E. Ben Yager Scholarship	Undergraduate accountancy major
EY Accountancy Scholarship	Undergraduate accountancy majors
EY Accountancy Scholarship for Minority Students	Minority students (junior or senior accountancy majors)
EY Master of Accountancy Scholarship	Accountancy graduate students
Grant Thornton LLP Accountancy Scholarship	Junior accountancy major
Harold W. Jasper Scholarship	Accountancy graduate student

Harry C. Lyle Scholarship	Undergraduate accountancy major
Jeffrey VonDeylen Family Scholarship	Undergraduate students
Joseph B. and Esther K. Paperman Memorial Scholarship	Senior accountancy major
KPMG Accountancy Scholarship	Undergraduate accountancy majors
KPMG Accountancy Scholarship for Minority Students	Minority, sophomore accountancy major
KPMG Graduate Accountancy Scholarship	Accountancy graduate student
Ogden Excellence in Accounting Award	Junior accountancy major
PwC Accountancy Scholarship	Undergraduate accountancy majors
PwC Accountancy Scholarship for Minority Students	Minority accountancy student
PwC Graduate Student Accountancy Scholarship	Accountancy graduate student
PwC Kelly Booms Memorial Scholarship	Senior accountancy or finance majors
Rankin Accountancy Scholarship	Accountancy graduate student
Rolland L. Ewell Accountancy Scholarship	Accountancy graduate students
Scott Schweinfurth & Margaret English Family Scholarship	Undergraduate accountancy major
Seth Kelling PwC Memorial Scholarship	Undergraduate accountancy major
William D. Stiles/Deloitte & Touche Memorial Scholarship	Undergraduate accountancy majors
William D. Stiles/Deloitte & Touche Memorial Scholarship	Accountancy graduate student
William H. Schaefer Scholarship	Accountancy graduate student
William R. and Irene R. Vogel Memorial Scholarship	Accountancy graduate student

All applicants to the MAcc program are considered for either the *C. Rollin Niswonger Fellowship* or one of the assistantships. The fellowship provides a stipend plus an instructional fee waiver; no duties are required. The graduate assistantships provide a stipend and instructional fee waiver and involve 10 hours/week of work. The fellowship and assistantships are awarded based on merit.

The *Marc A. Rubin Study Away Scholarship Fund* and the Close Family Scholarship provides financial assistance to students who wish to participate in the winter program, Acc 490, Accounting and Tax Policy, which takes students to New York and Washington DC.
